

American Society for Microbiology

Dear Participants of the 27th Brazilian Congress on Microbiology:

The American Society for Microbiology (ASM) and the Brazilian Society for Microbiology (SBM) have organized several exciting activities during the 27th Brazilian Congress on Microbiology.

With over 40,000 members, ASM provides the world's largest network of microbiologists. Brazil's participation in this network is essential and we hope that Brazilians will continue to be a major voice in our membership and society. In addition, our partnerships with organizations like the SBM enable us to address the world's health, environmental and economic issues more effectively.
